NOTES

- This synthetic document is intentionally formatted to exercise extraction of names, carriers, policy numbers, dates, limits, and endorsement-style fields.
- No real insurer, policy, address, or certificate holder is represented by this document.
- Use the extracted values as the expected test output when evaluating CertifiTrack.

QA expectation: The extraction system should preserve the exact policy numbers and dates, normalize dates consistently, and keep dollar limits numeric/structured rather than dropping symbols or digits.
